

# PATIO HEATER

Item # 2716

845.226.2447

## INSTRUCTIONS:

Lift compartment on the bottom of the heater to reveal the propane tank hook up. Place propane tank inside and attach hose to propane tank. Set dial on top of heater to low and press the ignition button. Once heater is lit, adjust the heat to your preferences.

### POWER REQUIREMENTS:

Propane

### SPACE REQUIREMENTS:

H: 7'6" W: 2' 9"

### OPTIONAL EQUIPMENT:

### OTHER REQUIREMENTS:

20 lb propane tank

If propane does not appear to be flowing to the ignition point, unscrew the tank and then reattach. When opening the valve on the propane tank, unscrew it slowly so as to not trigger the safety device.
